SEGUIN- Members of the GBRA Lockhart Wastewater Reclamation Division and the Luling Water Treatment Plant Division were among 23 employees who earned service awards ranging from five to 30 years for their years of service to the organization. The awards were presented at the annual GBRA company picnic in May by board chairman T. L. Walker and general manager Bill West.

“We are fortunate to have so many dedicated and highly-qualified men and women willing to devote their careers to providing quality water-related services to people and communities in the Guadalupe River Basin,” said West in presenting the awards.

GBRA Lockhart Division employees honored are Jason B. Eeds and John A. Fullilove, system operators (5 years).

The GBRA Lockhart Division manages, operates and supplies wastewater treatment services under a contract with the City of Lockhart and will also operate the new plant under construction on F. M. 20 North.

Luling Division employees who received awards are Joseph A. Downey, chief operator (20 years).

The Luling Division has provided municipal drinking water treatment and delivery to the City of Luling since 1978 and is a past recipient of the Region 6 Environmental Excellence Award for Public Water Supply from the U.S. Environmental Protection Agency.
