Meadow Lake (Nolte) to be Lowered May 15 for Routine Maintenance

CONTACT: Judy Gardner or Tammy Beutnagel, [830] 379-5822, email jgardner@gbra.org or tbeutnagel@gbra.org

FOR IMMEDIATE RELEASE

May 11, 2005

SEGUIN---- Guadalupe-Blanco River Authority hydroelectric crews will continue maintenance work on the Meadow Lake (Nolte Dam) spill gates. Beginning Sunday evening, May 15 Nolte's lake level will be approximately 20-24 inches below normal so that GBRA's hydroelectric crews can perform routine maintenance throughout the week.

The work will be completed on Friday, May 20, and the lake will start to return to normal levels by late evening.

GBRA advises anyone using Meadow Lake for recreation purposes during this time to exercise caution, since lower lake levels may expose debris and other potential hazards that are normally underwater.

The public is advised that scheduled operations may be canceled or adjusted in the event of adverse weather conditions.
