Lake Placid (TP-4) to be Lowered November 6-10 for Routine Dam Inspection

CONTACT: Judy Gardner or Tammy Beutnagel, [830] 379-5822, email jgardner@gbra.org or tbeutnagel@gbra.org

FOR IMMEDIATE RELEASE

October 31, 2006

SEGUIN---- Beginning the evening of Monday, November 6, 2006 Lake Placid (TP-4) will be lowered approximately 12 to 18 inches below normal so that the Guadalupe-Blanco River Authority (GBRA) hydroelectric crews can perform routine inspection to the dam.

The public is advised that these scheduled operations may be completed before November 10, 2006, or may need to be extended for an additional period of time. Operations may also be adjusted or canceled in the event of adverse weather conditions.

GBRA advises anyone using Lake Placid (TP-4) for recreation purposes during this time to exercise caution. Lower lake levels may expose debris and other potential hazards that are normally underwater.
