Lake McQueeney to be Lowered November 27 for Routine Maintenance

CONTACT: Judy Gardner or Tammy Beutnagel, [830] 379-5822, email jgardner@gbra.org or tbeutnagel@gbra.org

FOR IMMEDIATE RELEASE

November 22, 2006

SEGUIN---- Beginning Monday, November 27, 2006 Lake McQueeney may fluctuate as much as six inches from the normal elevation. GBRA's hydroelectric crews will perform routine maintenance to the Dunlap Canal Levee.

The public is advised that these scheduled operations may last approximately two weeks, or may need to be extended for an additional period of time. Operations may also be adjusted or canceled in the event of adverse weather conditions.

GBRA advises anyone using Lake McQueeney for recreation purposes during this time to exercise caution. Lower lake levels may expose debris and other potential hazards that are normally underwater.
