SEGUIN---- Beginning Tuesday, Sept. 16, a tentative schedule will be made by the Guadalupe-Blanco River Authority (GBRA) to lower Lake Dunlap and resume routine dam maintenance.

Operations may be adjusted or canceled pending adverse weather conditions.

Further details will be provided by GBRA as weather conditions change.

The GBRA was established by the Texas Legislature in 1933 as a water conservation and reclamation district. GBRA provides stewardship for the water resources in its 10-county statutory district, which begins near the headwaters of the Guadalupe and Blanco rivers, ends at San Antonio Bay, and includes Kendall, Comal, Hays, Caldwell, Guadalupe, Gonzales, DeWitt, Victoria, Calhoun, and Refugio counties.
