## Hydro Lakes Open to Most Uses

### Exceptions include prohibitions on inflatable objects and water toys

#### For More Information

JULY 16, 2010

LaMarriol Smith, Guadalupe-Blanco River Authority, (830) 379-5822 or email [lsmith@gbra.org](mailto:lsmith@gbra.org)

SEGUIN, TX - The Guadalupe-Blanco River Authority General Manager William "Bill" E. West has further amended the restrictions to Lake Dunlap, Lake McQueeney, Lake Placid (Placid Dam to IH-10), Lake Placid (Above IH-10), Meadow Lake, H-4 (Lake Gonzales) and H-5 (Lake Wood) to allow the use of non-motorized boats beginning at noon, Friday July 16, 2010. The new modifications also impose a limit on time of use to no-wake speed (headway speed) during the hours of 30 minutes after sunset to 30 minutes before sunrise.

The public may continue to enjoy the use of motorized boats to include towing of objects or individuals, and use of personal watercraft on all of the lakes. However, the restrictions continue to prohibit towing of inflatable objects and other water toys on all of the Hydro Lakes. This prohibition of the use of inflatable objects and other water toys will remain in effect until noon, Sept. 16, 2010.

A revised chart detailing the modified restrictions for each of the Hydro Lake is available on the GBRA website (or attached).

Please monitor GBRA's website for press releases with updates on changes in restrictions.

The GBRA was established by the Texas Legislature in 1933 as a water conservation and reclamation district. GBRA provides stewardship for the water resources in its 10-county statutory district, which begins near the headwaters of the Guadalupe and Blanco rivers, ends at San Antonio Bay, and includes Kendall, Comal, Hays, Caldwell, Guadalupe, Gonzales, DeWitt, Victoria, Calhoun, and Refugio counties.
