New Watershed Kiosk at Tye Preston Memorial Library

For more information

Tammy Beutnagel, GBRA, (830) 379-5822, tbeutnagel@gbra.org

Seguin – Want to know more about the Guadalupe River, water treatment and watersheds in general? Then plan to explore a new kiosk at the Tye Preston Memorial Library.

The Guadalupe-Blanco River Authority (GBRA) and the Tye Preston Memorial Library invite the public to view a new interactive kiosk, and learn more about the serious subject of water. It was designed and sponsored by skilled professionals at GBRA.

The kiosk displays educational modules by touch screen, and the user can listen to mini-lessons on a myriad of water subjects, such as watersheds and nonpoint source pollution, the water and wastewater treatment process, and operation and maintenance of aerobic and conventional septic systems.

The kiosk will have links to the Texas Commission on Environmental Quality (TCEQ) Clean Rivers Program, GBRA, Canyon Lake Chamber of Commerce, Canyon Lake Gorge, Corp of Engineers, and the Edwards Aquifer website. Visitors to the library may use the kiosk during its business hours which are Monday thru Thursday 9 to 8:30, Friday and Saturday 10 to 5.

“The Tye Preston Memorial Library is excited to have the opportunity for GBRA’s watershed kiosk to be made available to our patrons,” said Susan Boyle, Library Board Trustee. “We are committed to being environmentally conscious. Our new building and grounds were built to be environmentally green. As a result, we have a native, drought resistant landscape along with a water catchment system to provide irrigation. I see the GBRA kiosk as an extension of our education and outreach attempts to our local community and beyond.”

The Guadalupe River begins in Kerr County and runs more than 400 miles as it makes its way to the San Antonio Bay.

The GBRA was established by the Texas Legislature in 1933 as a water conservation and reclamation district. GBRA provides stewardship for the water resources in its 10-county statutory district, which begins near the headwaters of the Guadalupe and Blanco rivers, ends at San Antonio Bay, and includes Kendall, Comal, Hays, Caldwell, Guadalupe, Gonzales, DeWitt, Victoria, Calhoun, and Refugio counties.
