GBRA Deflates Fabridams at Saltwater Barrier

For more information

LaMarriol Smith, Guadalupe-Blanco River Authority, (830)379-5822, lsmith@gbra.org

TIVOLI, TX — Guadalupe-Blanco River Authority crews have deflated the fabridams at the Saltwater Barrier located on the Guadalupe River in Calhoun County because of higher flows from recent rainfall.

In the event that conditions return to low flows, GBRA officials will issue notification should the barrier have to be re-inflated.

The GBRA was established by the Texas Legislature in 1933 as a water conservation and reclamation district. GBRA provides stewardship for the water resources in its 10-county statutory district, which begins near the headwaters of the Guadalupe and Blanco rivers, goes on to San Antonio Bay, and includes Kendall, Comal, Hays, Caldwell, Guadalupe, Gonzales, DeWitt, Victoria, Calhoun, and Refugio counties.
