FANIN, Texas – The Second Annual Nature Fest, put on by the staff of the Guadalupe-Blanco River Authority's (GBRA) Coletto Creek Park and Reservoir, will take place 10 a.m. to 4 p.m. Saturday, April 1, 2017, at Coletto Creek Park and Reservoir located midway between Victoria and Goliad. The price of admission to this year's event will be waived thanks to sponsorship by Dynegy, owners of Coletto Creek Power.

Before the main Nature Fest activities begin, visitors can take advantage of a "guided bird walk" at 8 a.m. led by avid birders and naturalists Robert and Karen Benson.

"We're looking forward to introducing families and children to the thrill of nature and outdoor activities," Wilfred Korth, GBRA's chief ranger, said. "We've collaborated with local professionals to plan some great presentations, including some on gardening for birds, whooping cranes, snakes, and insects," he added.

In addition to a variety of exciting, nature- and conservation-themed exhibits, Nature Fest attendees, both children and adults, can enjoy testing their skills in archery, fish casting, kayaking, fish printing, and other fun recreational activities. And before leaving, attendees may take a "guided nature walk" with park rangers through the Coletto Creek Park Nature Trail.

"All age groups are welcome to join us, and given all of these sensational events, our park rangers are preparing for an even larger crowd than last year," Korth said.

For more information about Nature Fest or to inquire about volunteering, please contact the Coletto Creek Park Office at (361) 575-6366, or email [coletto@gbra.org](mailto:coletto@gbra.org).

GBRA Communications and Education staff disseminates press releases to local media and posts accordingly on the press release page of GBRA's website: [www.gbra.org](http://www.gbra.org). Information also is shared on GBRA's social media accounts through Instagram and Twitter "@GBRATX" and Facebook at "GBRA of Texas."

The GBRA was established by the Texas Legislature in 1933 as a water conservation and reclamation district. GBRA provides stewardship for the water resources in its 10-county statutory district, which begins near the headwaters of the Guadalupe and Blanco rivers, ends at San Antonio Bay, and includes Kendall, Comal, Hays, Caldwell, Guadalupe, Gonzales, DeWitt, Victoria, Calhoun, and Refugio counties.
