Canyon Flows to be Decreased

For more information

LaMarriol Smith, 830-379-5822, lsmith@gbra.org

The flow releases from Canyon Reservoir will be decreased from current levels of about 445 cubic feet per second (cfs) to about 280 cfs at 7 a.m. tomorrow (Tuesday, April 25, 2017). As always, flow releases may change in response to rainfall or other factors.
