## Change in Canyon Flows

### For more information

LaMarriol Smith, 830-379-5822, [lsmith@gbra.org](mailto:lsmith@gbra.org)

Releases from Canyon Reservoir near Sattler will be reduced from 150 cubic feet per second (cfs) to 115 cfs beginning at 7 p.m. Wednesday, July 5, 2017, due to reduced inflows. In the absence of measurable rainfall upstream, Canyon releases will remain at 115 cfs until further notice. As always, flow releases may change in response to weather conditions or other factors.
