

Canyon Lake Release Advisory

January 22, 2019

8:30 a.m.

The water level in Canyon Reservoir is currently at 910.92 ft. The U.S. Army Corps of Engineers is increasing the water release rate to 1200 cubic feet per second (cfs) Tuesday morning, January 22, to lower the water to 910.0 ft.

Property owners, recreationalists and other stakeholders should take notice of the changing river flows. Additional information about Canyon releases and other stream flow data may be found at <https://bit.ly/2NI2HTz>.
