

**Canyon Reservoir Advisory**  
**May 6, 2019**

Canyon Reservoir is currently at 909.62 ft. The Guadalupe-Blanco River Authority, under the direction of the U.S. Army Corps of Engineers, will increase the water release rate at Canyon Reservoir to 780 cfs at 6 p.m. today, May 6, 2019.

In general, releases from Canyon Reservoir will be comparable to those measured upstream of the reservoir at Spring Branch. Releases from Canyon Dam are based on current inflows and rainfall.

Property owners, recreationalists and other stakeholders should take notice of the changing river flows. Additional information about Canyon releases and other stream flow data may be found at <https://bit.ly/2NI2HTz>.
