

Canyon Reservoir Advisory
May 13, 2019

The U.S. Army Corps of Engineers has resumed management of water releases from Canyon Lake this morning, and will increase the release from approximately 794 cfs to 1,600 cfs over the next few hours.

Property owners, recreationalists and other stakeholders should take notice of the changing river flows. Additional information about Canyon releases and other stream flow data may be found at <https://bit.ly/2NI2HTz>.
